

Village Farms International Announces Favorable Amendment to FCC Credit Agreement

April 14, 2025 11:00 AM EDT

Amendment reflects improved covenants and aligns with Company's strategic focus on cannabis

VANCOUVER, British Columbia, April 14, 2025 (GLOBE NEWSWIRE) -- Village Farms International, Inc. ("Village Farms" or the "Company") (NASDAQ: VFF) today announced that it has favorably amended a credit agreement with one of its term lenders, resulting in improved terms, and greater financial flexibility which aligns with the Company's strategic focus on its expanding cannabis businesses internationally.

The Company announced that it has amended its Fresh Produce loan with Farm Credit Canada ("FCC Loan") to improve financial covenants which will enable the Company to progress its business without continued waiver requirements. These changes reflect considerable expansion and growth of Village Farms' business since entering into the original credit agreement in 2013, as well as a recognition of the Company's stronger strategic focus on its growing cannabis business. The FCC Loan carries a variable interest rate below 8.0 percent and matures on May 3, 2027. Other material terms for the FCC Loan remain unchanged.

Michael DeGiglio, Chief Executive Officer of Village Farms commented, "Today's announcement reflects our long-standing, collaborative relationship with FCC and their continued support of our growth strategy. More favorable financial covenants on our FCC loan will enable us greater flexibility to make further growth investments in the future. We believe this amendment demonstrates strength in our business, which is positioned for a strong year of growth in 2025."

About Village Farms International

Village Farms leverages decades of experience as a large-scale, Controlled Environment Agriculture-based, vertically integrated supplier for high-value, high-growth plant-based Consumer Packaged Goods. The Company has a strong foundation as the leading and longest-tenured fresh produce supplier to grocery and large-format retailers throughout the US and Canada and is capitalizing on new high-growth opportunities in the cannabis and CBD categories in North America, the Netherlands and selected markets internationally.

In Canada, the Company's wholly-owned Canadian subsidiary, Pure Sunfarms, is one of the single largest cannabis operations in the world, the lowest-cost greenhouse producer and one of Canada's best-selling brands. The Company also owns 80% of Québec-based, Rose LifeScience, a leading third-party cannabis products commercialization expert in the Province of Québec.

Internationally, Village Farms is targeting selected, nascent, legal cannabis and CBD opportunities with significant medium- and long-term potential. The Company exports medical cannabis from its EU GMP certified facility in Canada to a growing list of international markets including Germany, the United Kingdom, Israel, and Australia. The Company is expanding its international presence with additional export contracts to new countries and customers in the Asia-Pacific and European regions, as well as select strategic investments in operating assets. In Europe, wholly-owned Leli Holland has one of 10 licences to grow and distribute recreational cannabis products.

In the US, wholly-owned Balanced Health Botanicals is one of the leading CBD and hemp-derived brands and e-commerce platforms in the country. Subject to compliance with all applicable US federal and state laws and stock exchange rules, Village Farms plans to enter the US high-THC cannabis market via multiple strategies, leveraging one of the largest greenhouse operations in the country (more than 5.5 million square feet in West Texas), as well as the operational and product expertise gained through Pure Sunfarms' cannabis success in Canada.

Village Farms Clean Energy (VFCE), through a partnership with Atlanta-based TerraNova Renewables, creates clean energy from landfill gas at its Delta RNG facility. VFCE receives royalties on all revenue generated. This partnership reduces Vancouver's greenhouse gas emissions by 475,000 metric tons of CO₂ per year, equivalent to removing more than 100,000 vehicles off the road or the energy use equivalent of powering 51,300 homes for one year.
